RESPONSE TO OFFICE ACTION DATED 4/18/2003

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Please amend the aforementioned application as follows:

In the Claims:

4. (Twice Amended) [The apparatus of claim 1 wherein] An apparatus for injecting coiled tubing into a hole in the earth's surface comprising:

a frame having a first end and a second end;

a first and second spool support arm mounted to said frame,

a tubing storage spool removably mounted to said support arms, said tubing storage spool having said coiled tubing stored thereon;

an injector reel rotatably interconnected to said frame; and

a drive mechanism attached to said injector reel to rotate said injector reel;

wherein said spool support arms are vertically adjustable to accept varying tubing storage spool diameters

[said second tubing injecting position injecting position positions said injector reel above said front end of said frame, and said coiled tubing exits said apparatus at an angle less than 90° to said surface].
